Classifying Triangles Wrap-Up

I do - angles

Right
have a right angle

obtuse
have an obtuse angle

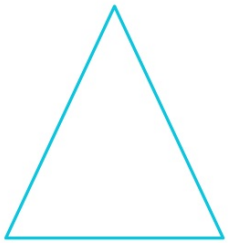

²
Acute
have only acute angles

I do

Equilateral

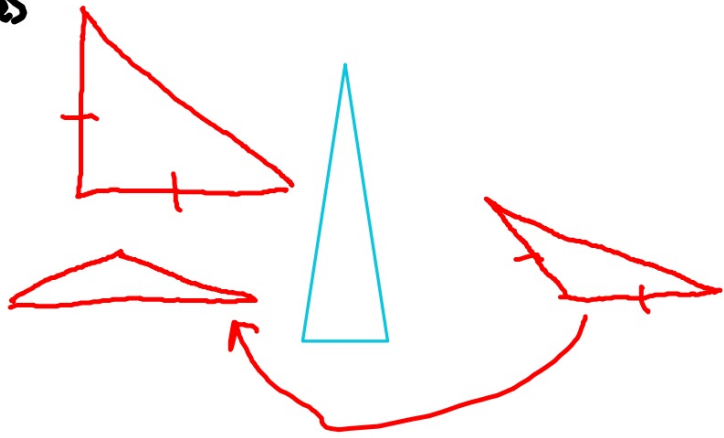

same side

3 congruent sides

Isosceles

2 congruent sides

Scalene

~~No~~ congruent sides

I do

We do

If classify by angle...

Right
has 1
right angle

Obtuse
has 1
obtuse angle

Acute
has all
acute angles

We do

If classify by sides

Equilateral

All 3 sides
congruent

Isosceles

2 sides
congruent

Scalene

No sides
congruent

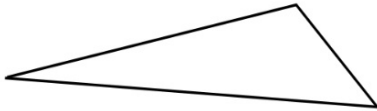

We do

Both!

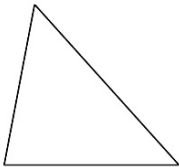

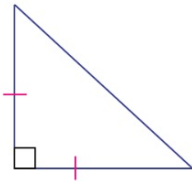

You do together
on whiteboard

2 names
for each
tri

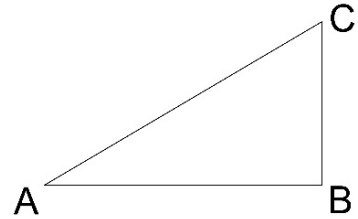

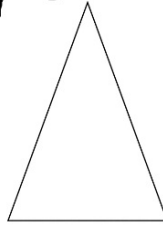

Angles

sides

2 names
for each tri

You do alone on
index card

.
